

I am totally disgusted with this undisguised effort of the few who own media outlets to control the voting process in this country.

It has become harder & harder to be an informed voter in this country with the control of TV/radio in the hands of so few moguls.

I just thank God for "FACT FINDER" on~line.

Sinclair media is an affront to democracy & the fact that you permit this kind of ownership is yet another insult to the population of this truly most wonderful country ever!

Will anyone ever step up to the plate & do the job or are all of you just mindless lackeys?
